

95G Unique LED Filament Bulb

Product Description

The unique design of 95G Unique LED Filament Bulb makes them not only artistic but also practical, perfectly for creating a very pleasant atmosphere in sitting rooms or bedrooms. They give instant 100% light, no warm-up time and uses 80% less power than conventional Incandescent bulbs. Also, 95G Unique LED Filament Bulb no longer requires a superfluous aluminum die cast for heat dissipation.

Benefits of LED filament bulb:

1. Energy-saving, low heat, low power consumption, stable performance.
2. Long life span, it can last 25000 hours.
3. LED filament lamps offer aesthetically appealing designs combined with quality and energy efficiency.
4. Perfect blend of traditional and cutting-edge technology.
5. Great reducing carbon emission, environmentally friendly.
6. With traditional incandescent lamp design, it can be easily accepted by common people.
7. With 360° beam angle, the filament bulb can give out light omnidirectional.
8. No radiation, no mercury, instant start, no flicker, no harm to human eyes.
9. Does not contain lead, mercury and other pollution elements.
