

G80 Spiral LED Filament Bulb

Product Description

G80 Spiral LED Filament Bulb is usually used in places where incandescent bulbs had been used before. For instance, it is used indoors in homes and offices. It also used in commercial environments such as hotels, restaurants, shops, and supermarkets. G80 Spiral LED Filament Bulb can also be placed in places where dimming of lights is necessary. These LED lights give off a warm inviting golden soft glow when used in table lamps or as accent lights. G80 Spiral LED Filament Bulb are perfect for creating a very pleasant atmosphere in sitting rooms or bedrooms. Our LED filament bulbs are, in particular, suitable for decorative and ornamental lighting fixtures.

Benefits of LED filament bulb:

1. Energy-saving, low heat, low power consumption, stable performance.
2. Long life span, it can last 25000 hours.
3. LED filament lamps offer aesthetically appealing designs combined with quality and energy efficiency
4. Perfect blend of traditional and cutting-edge technology.
5. Great reducing carbon emission, environmentally friendly.
6. With traditional incandescent lamp design, it can be easily accepted by common people.
7. With 360° beam angle, the filament bulb can give out light omnidirectional.
8. No radiation, no mercury, instant start, no flicker, no harm to human eyes.

Zhejiang Seming Electronic Co., Ltd

9. Does not contain lead, mercury and other pollution elements.
