	Name: G95 LED Vanity Bulb	
	Model: /	
	LED QTY: /	
	Size: D:95mm, H:135mm	
	Weight: 95g	
	Certificate: CE, RoHS, FCC	
		

Specification

Actual Power	15W	Size	D:95mm, H:135mm
Lumens	1521	Output Current	/
Output Voltage	/	LED Quantity	/
Lifespan	30,000 Hours	Commercial Type	G95
Working Frequency	/	CCT	warm light 3000K, cold light 6000K
Weight	95g	Coverage area	/
Outer Carton Size	/	Material	high-quality PC

Description:

G95 LED vanity Bulb is used in a variety of applications in which a ball shaped light source is required for decorative and vanity fixtures like for example ceiling fans, bathroom vanities, accent fixtures, restaurant pendant lights, ornamental lights, commercial light strings, decorative light strands, RV interior lighting, and boat cabin lighting. Globe shape bulbs emit light in all directions for full illumination. G95 LED vanity Bulb can be placed in light fixtures either on the ceiling or on the walls to deliver background illumination. Because LED lights feature instant brightness and high light levels they are ideally fitted to this purpose, including in larger rooms. Globe shape LED lights can also be used in bedside lamps and standard lamps for accent lighting, which produces more appealing effects than ambient lighting. They can also be employed in reading lamps directed in a selected area for focused light. This type of lighting is referred to as task lighting.

Lighting is one of those commonly overlooked aspects in interior lighting. Globe-style light bulbs are designed to accentuate all of your decorative fixtures throughout your home, making them look and feel extraordinary. This 15 Watt, G95 globe features a E27 medium screw base, produces a crisp white light at 1521 lumens, and can fit right into your living room or into the most cutting edge, state of the art, lighting design project. Its frosted PC finish helps to smoothly distribute light and deliver a softened, glare-free output. Excellent color consistency and high color rendering (CRI). Shatter, shock and vibration resistant. High tolerance of frequent switching, reliable performance in cold temperatures. Aluminum+plastic heat sink for excellent thermal management.

The benefits of G95 led vanity bulb:

1. These light bulbs deliver a warm atmosphere with soft light, while offering your family cost savings and efficiency.
2. no UV or infrared emissions, relatively cool running performance
3. capability to withstand vibration (no filament), no warm-up time or waiting to switch on and no detrimental effects from rapid cycling on and off.
4. 2 Year manufacturer backed Warranty
5. durable and ecologically friendly
6. roughly 80% more energy efficient than other bulbs
