Description：

If you are looking for a night light for the baby's room or for the bathroom, this cute Scarecrow LED Night Light is perfect. This light will brighten up any room with its cute details and the little yellow hat on the scarecrow. The base looks like grass with a little bunny and mushroom. At the same time, it has rechargeable batteries, you can just connect it to the desktop or laptop USB port and use it as well. The Scarecrow LED Night Light can be switched to ON or left in auto mode, if you want it to last a while between charging. It also comes with two USB ports which is quiet handy. The lamp is all LED, so is energy-saving and environment friendly. The switch is touch control and quite sensitive. No child will don't love this item. This would make an excellent baby shower, birthday, Christmas or just because gift.

Benefits of Scarecrow LED Night Light:

1. Soft lamplight for relaxing your life.
2.2 USB interface can be used for phone charging, when the lamp switching on the power, you can charge you phone by the USB port of the lamp.
3. Flexible twist, Removable hat, Vibration sensor, timer lights, charging protection
4. Cute scarecrow design led lamp, great decoration for kids' bedroom
5. Switch to sleep mode, the lamp lights up with 70% brightness, automatically turns off after 10 minutes
