

T30 Tubular LED Filament Bulb

Product Description

T30 Tubular LED Filament Bulb has been designed to imitate the vintage style incandescent filaments. It offers aesthetics that will update your existing bulbs while maintaining a classic feel. At 4 Watts, T30 Tubular LED Filament Bulbs generate a powerful light (as much light as a standard 40w incandescent bulb) yet have very low energy consumption and an extremely long lifespan, making them environmental friendly. They give instant 100% light, no warm-up time and uses 80% less power than conventional Incandescent bulbs. Each T30 Tubular LED Filament Bulb has a 360° beam spread, ideal for a wide variety of decors; from home lighting, cafe lighting and restaurant lighting, shop fronts and office fit outs... anywhere a statement and a light source is required.

Benefits of LED filament bulb:

1. Energy-saving, low heat, low power consumption, stable performance.
2. Long life span, it can last 25000 hours.
3. LED filament lamps offer aesthetically appealing designs combined with quality and energy efficiency
4. Perfect blend of traditional and cutting-edge technology.
5. Great reducing carbon emission, environmentally friendly.
6. With traditional incandescent lamp design, it can be easily accepted by common people.
7. With 360° beam angle, the filament bulb can give out light omnidirectional.

Zhejiang Seming Electronic Co., Ltd

8. No radiation, no mercury, instant start, no flicker, no harm to human eyes.

9. Does not contain lead, mercury and other pollution elements.

Detailed Parameters:

Bulb Type	Tubular Incandescent Clear Glass
Condition	Brand new light bulb and packed with factory box
Dimmable	Yes
Size	Diameter 30mm x Height 300mm
Watts	4W /6W /8W
Voltage	85-165V /85-265V /220V
Life Hours	20000 average hours
Base Type	Standard E27 Medium Screw Base / Brass Base Finish
CRI	65
Lumens (Initial)	200 lm /600 lm /800 lm
Color Temperature	2400K warm color

More Details:

E27 screw base is interchangeable with E26 lamp holder.

All of our light bulbs are CE approved and will work anywhere in the world. And OEM, Custom made both are OK.
