

Zhejiang Seming Electronic Co., Ltd

	Name: UFO 90W LED Grow Light
	Model:CDL-G-UFO90W
	LED Qty:48pcs
	Size:Φ260*136mm
	N.W.:2.86kg
Certificate: CE、RoHS	

Specification

Name	90W LED Grow Light	Actual power	85~95W
Model	CDL-G-UFO90W	LED Qty	48pcs*3W
Input voltage	AC100~240V	LED color	Red(630nm)/Blue(460nm)
Output voltage	DC55~70V	Lifespan	50,000 Hours
Input current	670~700mA	Working frequency	50~60Hz
PF	0.9	Working environment	20~40°C 45%~95%RH
Product size	Φ260*136mm	N.W.	2.86kg
Inner carton size	290*290*180mm	G.W.(Inner carton)	3.3kg
Outer carton size	590*300*370mm	G.W.(Outer carton)	14.05kg
Standard configuration	LED Light x1,Power line x1,Chaining x2		
Remarks	The above parameter is based on Red:Blue=8:1, for reference only		

Illumination and PAR value data sheet

Height(cm)	20	40	60	80	100	150	200
PAR (umol m-2s-1)	580	170	83	50	32	14	8
Illumination(lux)	15080	4880	2880	1335	816	380	221
Irradiation Area(m ²)	0.3	0.5	1.1	1.8	2.9	5.2	7.9

(Remarks: the irradiation area is based on PAR value > 10)

Description:

UFO LED grow light was named for its shape. As same as other grow lights, the UFO led grow light can provide the correct lighting condition for your plant. Besides that, this led grow light has a double cages structural design which changed the heat dissipation mode from the traditional led grow light. UFO LED grow light divided the inside of the lamp to 2 parts and form

Address: Haicheng Road, Baiguan Industrial District, Shangyu Area, Shaoxing City, Zhejiang province, China; Tel: +861 8267537265, **WhatsApp: +8618267537265; Email: sales@seminglighting.com**

Zhejiang Seming Electronic Co., Ltd

2 heat-dissipation cage ,then it will cut off the internal thermal cycle effectively and reach the best cooling performance. Use the unique air-out design and open air exhaust in the two sides of the lamp which can remove the high temperature air rapidly, thus ensure the light body operation in a low-temperature environment. The LED UFO grow light is ideal for all phases of plant growth because it utilizes only the light spectrum required by plants. UFO LED lights also can save much money because they use no wasted light spectrums, such as green light. UFO LED lights use less power than other common grow lights, and UFO LED lighting creates less pollution as well. Finally, the LED UFO grow light has a long life of 50,000 or more useful hours.

UFO Series Led Grow Light 90W Features:

1. Led light source, less heat generated, it will promote healthy growth and higher Yield.
2. Environment friendly, no mercury and other harmful heavy metal
3. High luminous efficiency, the light from UFO led grow light can be absorbed well by plant.
4. Long life span, no need to replace lamp frequent.
5. UFO LED grow lights are smaller than other grow lights, it fits in at any corner of the greenhouse.
