

80G Unique LED Fireworks Bulb

Product Description

80G Unique LED Fireworks Bulb has a captivating look just like a grenade. The 80G Unique LED Fireworks Bulbs have an output of 180 lumens at 2200K color temperature and emit a wide 360° beam angle for all-over illumination. The energy-efficient bulb uses only 1.8 watts of power, an incandescent bulb with comparable light output would consume 15-20 watts. Also, 80G Unique LED Fireworks Bulb will create a beautiful ambience in your home or commercial premises and will enhance the overall design of any decorative lighting fixture.

Benefits of LED Fireworks bulb:

1. It is designed to last 20,000 hours—17 times longer than incandescent bulbs.
2. Use 80% less power than conventional or halogen light and 50% less than compact fluorescents.
3. The power saving from an Led light will usually pay for itself in less than 2 years.
4. It is fit for building the atmosphere of somewhere just as bar, bistro, and so on.
5. Less heat produce, it is safer to operate.
6. Environment-friendly, no mercury and harmful metal.
