	Name: A60 Led light Bulb	
	Model: /	
	LED QTY: /	
	Size: D: 60mm; H:112mm	
	Weight: 105g	
	Certificate:CE,RoHS,FCC	
		

Specification

Actual Power	9W	Lumens	806
Input Voltage	/	Output Current	/
Output Voltage	/	LED Quantity	/
Lifespan	30,000 Hours	Commercial Type	A60
Material	high-quality PC	CCT	warm light 3000K, cold light 5700K
Weight	105g	Size	D: 60mm; H:112mm
Ra	≥80	G.W.(Outer carton)	/

Description:

A60 Led Light Bulb delivers superior-quality light as affordable prices. This LED light bulb is a perfect replacement for a 60W incandescent. It produces an illuminating 810 lumens from a 200° beam angle. Shaped in a familiar way, this LED light bulb for maintains high quality of bulbs. The optics is designed for precise beam control for smooth illumination virtually identical to traditional incandescent. Rated up to 25,000 hours at 70% lumen maintenance, this A-line LED lamp offers years of service and reduce energy and maintenance costs. The LED light bulb operates reliably between temperatures of -20°C to +40°C, and can withstand frequent switching. It doesn't have mercury, causing no harm to you, your home or the environment .Ideas can surround you anywhere or anytime. For example:- ceiling fixtures, pendant fixtures, down light fixtures, ceiling fans, wall sconces, table lamps, floor lamps, and more.

The benefits of A60 led light bulbs:

- Ideal for directional and general purpose lighting
- High color rendering of Ra 80 offers exceptional color quality.
- Aluminum plastic heat sink for excellent thermal management.
- High product efficacy, A+ Energy Class.
- A wider beam angle offers greater coverage.
