Zhejiang Seming Electronic Co., Ltd

G95 Retro Soft LED Filament Bulb

Product Description

G95 Retro Soft LED Filament Bulb is contrary to other LED bulbs that provide light in only one direction. The crystal clear glass bulb and the creative arrangement of the LED filaments make this multi-directional lighting possible. Also, there is no delay in illumination when switched on it. G95 Retro Soft LED Filament Bulb is usually used in places where incandescent bulbs had been used before. For instance, it is used indoors in homes and offices. It also used in commercial environments such as hotels, restaurants, shops, and supermarkets.

Benefits of LED filament bulb:

1. Energy-saving, low heat, low power consumption, stable performance.

2. Long life span, it can last 25000 hours.

3. LED filament lamps offer aesthetically appealing designs combined with quality and energy efficiency

4. Perfect blend of traditional and cutting-edge technology.

5. Great reducing carbon emission, environmentally friendly.

6. With traditional incandescent lamp design, it can be easily accepted by common people.

7. With 360° beam angle, the filament bulb can give out light omnidirectional.

8. No radiation, no mercury, instant start, no flicker, no harm to human eyes.

9. Does not contain lead, mercury and other pollution elements.

Detailed Parameters:

Bulb Type	Incandescent Clear Glass
Condition	Brand new light bulb and packed with factory box
Dimmable	Yes
Size	Diameter 95mm x height 129mm
Watts	3.5W
Voltage	85-265V
Life Hours	20000 average hours
Base Type	Standard E27 Medium Screw Base / Brass Base Finish
Lumens (Initial)	170lm
Color Temperature	2200K
Bulb Color	Warm

More Details:

E27 screw base is interchangeable with E26 lamp holder
