

# Zhejiang Seming Electronic Co., Ltd

	Name: Led Aqua Bar Lights (0.9m)	
	Model: /	
	LED QTY: 20 PCS	
	Size: 900*56*35mm	
	Weight: /	
	Certificate:CE,RoHS,FCC	
		

## Specification

Actual Power	40W-45W	Size	900*56*35mm
Ingress Protection	IP65	Output Current	/
Input Voltage	100V-240VAC	LED Quantity	/
Lifespan	30,000 Hours	Commercial Type	/
Input Current	0.1A-0.4A	CCT	/
Net Weight	1.95KG	Coverage area	/
Output Current	600mA-620mA	Material	

## Description:

This LED Aqua Bar Lights is a kind of grow light incorporated modern energy-saving technology. It has a different lighting emitting system that is good for the growth of water animals and water plants. In practice, The LED aqua bar do greatly increase both survival and growth rate of aquatic life, as it can almost replicates the optimum spectrum of the nature lighting condition while other incandescent bulbs can't achieve. The LED Aqua Bar Light is an ideal fit for aquarium or other greenhouse because of its full spectrum to meet the special needs of light wave or other light specific characteristics of plants and animals. The Aqua Bar Light can emitting a wide 360° beam angle for allover illumination to promote the plants' growth. And comparable incandescent bulb would consume more than Aqua Bar Light should. In lifespan, this Aqua Bar Light is designed to last 30,000 hours—25 times longer than incandescent bulbs. In conclusion, if you need to select aquatic lighting to grow your water animals or plants, this led aqua bar is your best choice.

## LED Aqua Bar Lights Features:

1. Led light source generates less heat promotes higher similar environment for water plants and healthier growth of water life.
2. Environment friendly, no mercury and other harmful heavy metal
3. High lighting effect. It can save much energy than traditional aqua bar lights.
