### Description:

Let yourself be tempted by the new furniture Design LED. The Champagne Bucket Bright LEDs can be used indoors or outdoors as it is waterproof. Essential to decorate your bar, lounge, garden, pool, terrace etc ... A compact, lightweight remote control allows you to change the atmosphere with a single click. Thanks to its low power LEDs, this design object is economical and ecological. 16 colors are available in several modes: fixed, random, fades, transitions, flashes ...

The Champagne Bucket Bright can be plugged into a 220V outlet or be autonomous in its batteries. Once loaded it has a range of 6 to 8 hours.

**Application:** table lamp, crystal chandelier, wall lamp, down light and so on.
