

Zhejiang Seming Electronic Co., Ltd

	Name: R39-3 Reflector Bulb	
	Model: /	
	LED QTY: /	
	Size: D:39mm, H:67mm	
	Weight: 26g	
	Certificate: CE, RoHS, FCC	
		

Specification

Actual Power	3W	Size	D:39mm, H:67mm
Lumens	245	Output Current	/
Output Voltage	/	LED Quantity	/
Lifespan	30,000 Hours	Commercial Type	A39
Working Frequency	/	CCT	warm light 3000K, cold light 5700K
Weight	26g	Coverage area	/
Outer Carton Size	/	Material	high-quality PC

Description:

R39 led reflector bulb consumes just 3 Watts of energy, yet still beams up to 245 lumens of light. You can replace a 30W equivalent and enjoy the same level of brightness, while saving up to £112 from a single lamp over its lifetime. Plus, it's designed to last 25,000 hours, which is 20-times longer than standard lighting equivalents.

You have two light colours to choose from; cool white and warm white. Cool White beams a refreshing, whiter glow that's commonly used in bathrooms, while warm white produces a softer light that's mostly used in living areas. Plus, each colour comes with a dimmable option too, so you have full control over the atmosphere in your home.

It comes with a wide 110° beam angle that can be used for lighting up large spaces.

Benefits of R39 led reflector bulb:

1. Roughly 80% more energy efficient than other bulbs
2. The light absolutely durable and less prone to damages, the quality of light remains constantly bright even after several hours of uses
3. Almost identical in shape and size to a halogen bulb for maximum compatibility
4. Very attractive appearance - beneficial when the bulb is on show
5. 2 Year manufacturer backed Warranty
