

SM-T11A LED Street Light

Product Description

SM-T11A LED Street Light is better than normal LED lights for its large number light sources, which can be different with specific model and enables different light intensity. Also, with the help of its advanced chip, the speed of it to emit light would be much better than other LED street lights in the market. And the color rendering index of SM-T11A LED Street Light is higher than many other lights, helping drivers to identify the different signs correctly and reduce the incidence of traffic accidents effectively. What's more, SM-T11A LED Street Light is competitive for its outstanding working ability against harsh environments such as heavy rain, low temperature, and so on. Finally, you can save a lot of energy cost during using it for SM-T11A LED Street Light is of 91% power efficiency.

SM-T11A LED Street Light Features

1. Modular pluggable technology, tool-free onsite maintenance
2. Honeycomb and whole structure cooling technology, high efficient heat dissipation
3. Double-coupling IP68 protection, highest waterproof level
4. Intelligent constant current driving technology, long life span
5. Ergonomic light distribution to achieve uniform illuminating effect
6. Free modular serialization and full power range solutions.

Detailed Parameters
