

## SM-T25B LED Street Light

### Product Description

SM-T25B LED Street Light is better than normal LED lights for its large number light sources. Which can be different with specific model and enables different light intensity. Also, with the help of its advanced chip, the speed of it to emit light would be much better than other LED street lights in the market. And the color rendering index of SM-T25B LED Street Light is higher than many other lights, helping drivers to identify the different signs correctly and reduce the incidence of traffic accidents effectively. What's more, SM-T25B LED Street Light is competitive for its outstanding working ability against harsh environments such as heavy rain, low temperature, and so on.

### SM-T25B LED Street Light Features

1. Electrical Class II (standard), and Class I available,
2. IP68 LED Optical Module, IP66 for the whole fixture,
3. Tempered glass lens designed, easy for cleaning,
4. Optional installation, can be installed horizontally or vertically, adjustable by  $\pm 15^\circ$  in both directions Ergonomic light distribution to achieve uniform illuminating effect,
5. Photocell optional

### Detailed Parameters
