

SM-T32A LED Street Light

Product Description

SM-T32A LED Street Light is better than normal LED lights for its large number light sources. Which can be different with specific model and enables different light intensity. Also, with the help of its advanced chip, the speed of it to emit light would be much better than other LED street lights in the market. And the color rendering index of SM-T32A LED Street Light is higher than many other lights, helping drivers to identify the different signs correctly and reduce the incidence of traffic accidents effectively. What's more, SM-T32A LED Street Light is competitive for its outstanding working ability against harsh environments such as heavy rain, low temperature, and so on.

SM-T32A LED Street Light Features

1. IP68 LED Optical Module: highest waterproof rating, screw-free design,
2. Modular design, air convection effect, good thermal management system,
3. Multiple light distributions available,
4. Intelligent constant current driver, long life span,
5. Flexible combinations of LED modules, full power range solutions,
6. Tool-less access, easy installation and maintenance,
7. Metal structure, high mechanical strength
